## New York Stock Market

New York, September 24.—After backing and filling within a narrow range for the first four hours to-day, 2; the stock market suddenly resumed its upward course in the last hour, incidentally establishing more high records for the year. Amalgamated and Anaconda Coppers went to their best figures since 1910, a result in large part of the increase in the Anaconda quarterly dividend from 50 to 75 cents per

of the increase in the Anaconda quarterly dividend from 50 to 75 cents per share. Inasmuch as Amalgamated Copper controls Anaconda, it will profit very materially by the higher dividend.

The rest of the market moved in harmony with the coppers, although some of the standard railroad issues were relatively backward. Both Reading and Lehigh Valley were in demand towards the close, with equal strength in Louisville and Nashville, Atlantic Coast Line, Canadian Pacific and Chicago and Northwestern.

Business of the Two Carolinas Hereafter to Be Done at Raleigh.

Washington, September 24.-It was

learned authoritatively from the luternai Revenue Bureau of the Treas-ury Department to-day that following provision inserted in the last legisury Department to-day that following a provision inserted in the last legislative bill passed by Congress providing for the abolishment of four of the revenue collection districts of the United States, the office at Columbia, S. C., would be moved to Raleigh. October 1. This action has just been decided upon, and is to be taken despite the protests of the Columbia Chamber of Commerce and Congressman Lever, who recently protested against the move. When Columbia citizens got wind of the fact that was likely to be a consolidation of offices they took the matter up, sending a long petition to the President. This was duly received and filed with Commissioner Cabell, of the Internal Revenue Bureau. There was nothing, however, which the President could however, which the President could do. The plan was to consolidate some of the weaker collection districts with the stronger offices in order to save money for the government.
